WASHINGTON - PERS. PERS. 1

USS ARCHIVE

19 September 1945 *12*

MEMORANDUM

**SECRET**

FOR : Colonel Gamble

FROM: Mr. Murphy *JLM*

I am attaching estimates I and II for continued X-2 operations.

No. I is set up as complete coverage, exclusive of the Western Hemisphere, and contemplates an efficient operation. The total budget estimate is based on a full fiscal year, and the estimated cost for operations to the liquidation date can be figured by taking 7/12s of the total.

No. II estimate is what we believe would be essential coverage for stations, number of personnel, and cost for what might be termed a holding operation from now until the liquidation date and to provide a proper nucleus for permanent work, without suffering irreparable loss of present assets. A figure representing 7/12s of the total budget estimate would give the estimated cost from July 1, 1945 to liquidation date, January 1.

I will submit a list of personnel which would be recommended and available to cover the stations in both places.
